gemstones birth stones guide

JANUARY Garnet
This lovely red stone has symbolized many things: fire, faith, truth, grace and fidelity.

FEBRUARY Amethyst
According to Greek legend, Bacchus created this beautiful purple stone, thus anyone wearing an amethyst could not become intoxicated.

MARCH Aquamarine
Ancient Greeks believed aquamarine held the spirit of the sea. To the early Christians it symbolized harmony, happiness, innocence, youthfulness and purity.

APRIL Diamond
Everyone's best friend. It symbolizes eternity and courage.

MAY Emerald
Gem-quality emeralds are so rare they are considered more valuable than diamonds. The ancient Egyptian emerald mines near the Red Sea were worked as early as 2000 B.C., and were the main source of emeralds for the West until the 16th century. By this time finer quality emeralds were being mined in Columbia.

JUNE Pearl
Its rich white lustre symbolizes a pure heart.

JULY Synthetic Ruby
Rubies are believed to have great powers, ensuring a peaceful, harmonious life. It is also thought to control one's passions and thoughts.

AUGUST Peridot
Discovered as early as 1300 B.C. near the Red Sea. Today they are found in the East Indies and the sky.
