

Wedding Ring Blanks

THE WIDEST RANGE OF EX STOCK HALLMARKED WEDDING RING BLANKS IN THE U.K.

Our range offers all the popular ring styles, 'D' shape, Court, Flat, Easy-fit and Halo, plus hundreds of new additions for 2006 which include:

- Knife edge blanks
- Concave rings
- 9ct & 18ct Red blanks
- A new Heavy weight range of Easy-fits
- A new Medium weight range of Flats
- Extra weights, sizes and styles in Platinum
- Additional 'D's, Courts & Flats in 9ct White Gold

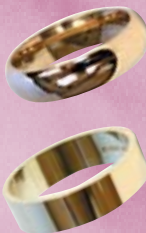

We offer a selection of commercial weight ranges..... Heavy weight, Medium weight & Light weight to meet all the different price points.

We hold seven different profiles of ring, thus catering to all of your customers needs.

Quite simply, Cookson holds the largest ex-stock range of Hallmarked rings in the U.K. - over 3000 different combinations of size, shape & weight.

All rings are supplied Hallmarked.

Wedding Ring Blanks

HOW DO I CHOOSE?

- Choose the carat & colour
- Select the style (Court, D shape, Flat, Easy Fit, Knife Edge, Halo or Concave)
- Select the width & weight (light, medium or heavy)
- State the code and the fingersize.
- In the example below a TADH 05L finger size T, will order a Hallmarked, 9ct Yellow 'D' Shape ring, 5mm wide, light weight, finger size T.

RING PROFILES

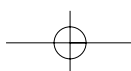

Court Section	The Court section ring has a domed profile with a domed interior.	
D Section	The D section ring has a domed profile with a flat inside.	Lightweight Profile Heavyweight Profile
Flat Section	The Flat section ring is the traditional wedding band.	
Easy Fit (Flat Court)	The Easy Fit section ring has a flat profile with a domed inside.	
Halo	A ring with a perfect round profile.	
Concave	A concave ring with a deep groove.	
Knife Edge	The comfort fit of a court with an angular outer design	
4 Square	The Four Square Ring as its name suggests has a square profile with a round flat inside.	

RING WALL THICKNESSES in mm

Shape	Light	Medium	Heavy	Shape	Light	Medium	Heavy
Court	1.4 - 1.7	1.7 - 2.0	2.0 - 2.5	Halo			3 - 4
D Shape	1.0 - 1.3	1.4 - 1.7	1.8 - 2.1	Concave		1.9	
Flat		1.0 - 1.3	1.5 - 1.8	Knife Edge	1.8 - 2.3		
Easy Fit		1.6 - 1.9	1.9 - 2.4				

Exact wall thicknesses are available on request please contact us for details.

Please note: All sizes, weights, images and drawings are not to scale and are given for guidance only.

New Rings for 2006

Knife Edge Rings

Bringing an edge to the traditional court ring. The 'Knife Edge' blank has all the comfort that you expect from a court, plus an angular design on the outside that is both striking and modern. These highly fashionable rings look stunning and elegant when placed next to an engagement ring in the smaller widths. They also look very masculine when purchased in a 6mm width.

Available in 9ct Yellow, 9ct White, 18ct Yellow, 18ct White, Standard Silver and Platinum.

Concave Rings

The concave ring is a bold new ring shape, with a striking concave grooved design. Perfect as a stand alone modern dress ring, the ring is also ideal for inlaying a second band, creating an attractive two piece or two colour ring. The concave is also suitable for stone setting or inlaying enamel.

Available in 9ct Yellow, 9ct White, 18ct Yellow, 18ct White, Standard Silver and Platinum.

See page 68 for a guide to making Spinning Rings

Red Gold Rings

9ct Red and 18ct Red Gold alloys have a rich warm colour that give you a beautiful contrast against yellow and white. Red gold is starting to make a comeback, as manufacturers look to colour to enhance and brighten pieces to complement their ranges.

The range comprises of both courts and 'D' Shapes In 3 different widths.

See page 62

Please note: All sizes, weights, images and drawings are not to scale and are given for guidance only.

SPOTLIGHT ON.....

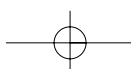

Red Gold

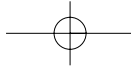

9ct Red and 18ct Red Gold alloys have a rich warm colour that gives beautiful contrast against both yellow and white.

Red Gold is making a comeback, as manufacturers look for colour to enhance and brighten pieces to complement their ranges. Red Gold also enables the creation of Russian style bands.

Please note: For ring wall thicknesses see table on page 56

WEDDING RINGS

Their love has just gone platinum... ...have your sales?

Demand for platinum bridal jewellery is at an all time high in the UK with consumers continuing to "trade up" and pay more for those items deemed valuable. The price of platinum is not a deterrent in the search for the perfect rings, which combined with the desire for platinum outstripping its supply rate, creates a profit opportunity for retailers.

An ever wider range of platinum wedding ring blanks is now available from Cookson.

Details of all styles, sizes and weights stocked are on the following pages.

4 Square Ring Blanks

To aid the growing trend for edge setting, Cookson have produced a range of square shaped rings that are both simple and elegant. Ideal as a contemporary wedding band or right hand dress ring that can be stone set or engraved. The depth in each corner (2.4mm) is ideal for edge setting stones.

Easy Fit Ring Blanks

The Easy Fit ring is becoming an ever more popular design. To complement Cookson's current Medium weight range we are now introducing a Heavy weight range. These rings will be thicker and will offer more depth for diamond setting.

Available in 9ct Yellow, 9ct White, 18ct Yellow, 18ct White, Platinum and for the first time Standard Silver.

Please note: All sizes, weights, images and drawings are not to scale and are given for guidance only.

Wedding Ring Blanks

How To Make Unique Spinning Rings

Concave Ring Blanks

The concave ring is a bold new ring shape, with a striking concave grooved design. Perfect as a stand alone modern dress ring, the ring is also ideal for inlaying a second ring, creating an attractive two piece or two colour ring. The concave is also suitable for stone setting or inlaying enamel.

The benefit of concave rings - No need to mill out or groove a Court or Easy Fit; thus greatly reducing scrap & wastage.

Unique spinning rings can be created...

1) Place a court, easy-fit or halo ring over the concave section.

2) The concave ring is then stretched into place behind the inserted ring.

3) The finished ring is polished and ready for your customer!

Note: When creating fixed two piece or two colour rings you may find it easier to use wire solder for a cleaner finish.
