

# Colourful wire wrapped bracelet

by *Katie Hacker*

**Beadalon®**

## Step 1

### Position the first bead

Take a 3" (7.62cm) length of Artistic Wire and, using chain nose pliers, make a 90 degree angle about 1" (2.54cm) from the end of the piece of wire. Use round nose pliers to make a loop. String an 8mm bead onto the wire.

## Step 2

### Create a link

Make another loop on the other side of the bead. Hold one loop with chain nose pliers and use your fingers to wrap the wire end around the wire stem and the bead. Repeat for the other side of the bead to make one bead link.

## Step 3

### Form the bracelet

Cut another 3" (7.62cm) length of wire. Make a second bead link but attach it to the first one, prior to wrapping the loop on the end of the bead. Repeat steps 1-4 until the bracelet reaches the desired length.

## Step 4

### Finishing touches

Attach the clasp to the last loop. String a 6mm bead onto a head pin. Make a loop above the bead and attach it to a loop between 8mm beads on the bracelet. Finally, wrap the extra wire around the stem, and you're done.

## What you'll need:

**Beadalon Artistic Wire 24 gauge silver plated 13.7m**  
701 073

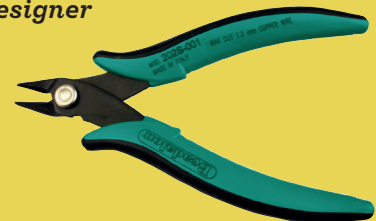

**Assorted 6mm and 8mm round glass beads**

**Base metal white pin 75mm flat headed pack of 100, half hard** N2R 121X

**Base metal brass bolt rings 5.5mm open tops silvered** N2D00190

**Beadalon designer nipper tool**  
999 CB9L

**Chain nose pliers** 999 3701

**Beadalon round nose nylon jaw pliers** 999 726
