

# Simply beautiful

*It's surprisingly simple to create this sparkling and stylish bracelet using the Crystal Dome Bead Bracelet Kit from Swarovski.*

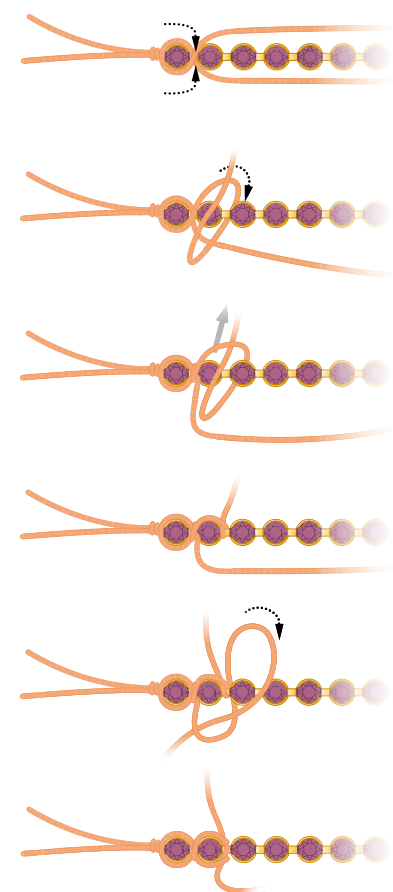

### Step 1:

Cut two 90cm long pieces of beige waxed cord. Tie them with double knots leaving an excess length of 15cm.

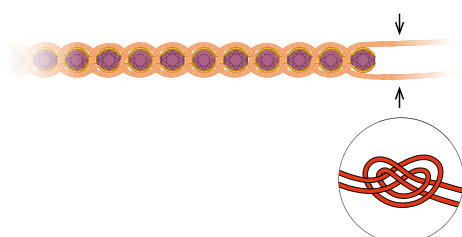

### Step 2:

Take the Swarovski Cupchain and wind the waxed cord around the crystal as shown in the illustrations.

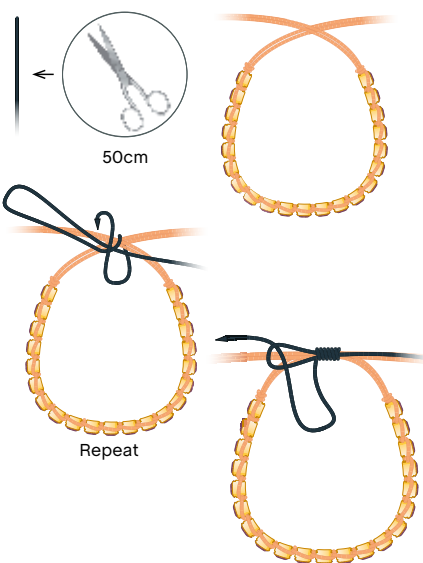

### Step 3:

Once you reach the end of the cupchain, tie a double knot at the end of the waxed cord.

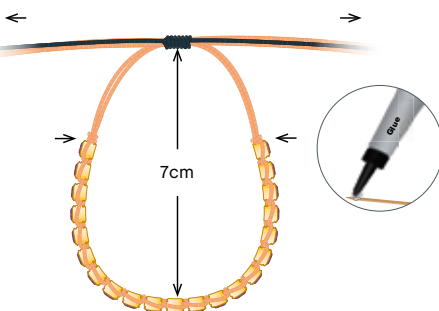

### Step 4:

Cut 50cm of blue waxed cord and fold in half. Form the cupchain into a bracelet shape and tie the blue wax cord around the beige wax cord as shown in the illustrations.

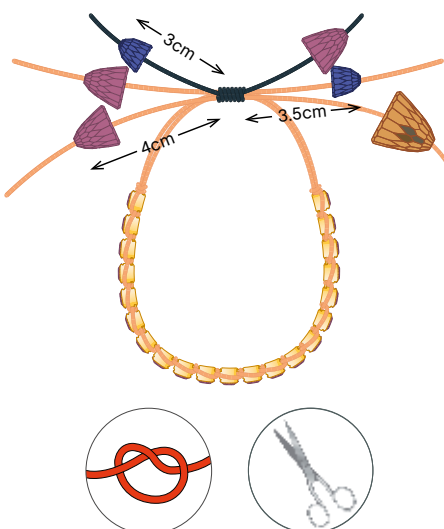

### Step 5:

Put some glue at both the ends of the cupchain and let it dry. Pull both ends of the beige cord to make a bracelet with 7cm diameter.

### Step 6:

Slide a Swarovski crystal onto each free end. Knot them as shown in the illustration and cut off the excess thread.

## What you'll need:

### Crystal Dome Bead Bracelet Kit from Swarovski®
