FESTIVE BEADED BRACELET

By Basia Abramowska

What you'll need:

Clear Elastic Bead Cord	998 316
Knotter Tool	999 AMB
6mm Carnelian Semi Precious Beads	67SP CO02
6mm Malachite Round Beads	67SP ML02
6mm Gold Electroplated Hematite Semi Precious Round Beads	67SP HE64
6mm Green Aventurine Semi Precious Round Beads	67SP AV02

1: CUT THE ELASTIC

Cut the elastic bead cord to approximately 60cm in length. Attach the first bead (my choice was Gold) and move it into the centre of the cord.

2: ATTACH THE BEADS

Attach a bead to either side of the first bead.

3: LOOP THROUGH

Feed your next bead onto one end of the cord, then feed the other end of cord through the beads from opposite side. Pull both cord ends until the bead meets the other beads and can move no further.

5: REPEAT

Repeat the pattern until you reach the required length.

6: END ON TWO BEADS

To finish the pattern end on two beads.

4: ATTACH MORE BEADS

Attach a bead to either side of the cord and repeat step 2.

7: FINISH

Feed one end of the cord through the very first bead you used. Pull tight then tie both ends of cord together securely and cut them. You can use a knoter tool to do this if you prefer and your bracelet is complete.
